12000 W. FRANKLIN RD. BOISE, ID 83709 (866) 735-5873 CUSTOMERSERVICE@REKLUSE.COM

 **REKLUSE**<sup>®</sup>  
clutch rEvolution™

Rekluse was founded in 2002 on the values of performance, quality and innovation. Our employees exemplify these values with their passion, enthusiasm, and dedication to motorcycling. We are in the business because we share a genuine bond and respect for all on two wheels.

We are renowned for our world-class automatic clutches. Our unique technology makes clutch lever use optional when taking off and when coming to a complete stop.

In addition to auto-clutches, Rekluse manufactures high-performance manual clutches and clutch components that are engineered to far exceed OEM performance and durability. Whether your adventure takes you into the hills on your dirt bike or across the country on the open road, Rekluse products are designed to give you a better ride.

**Rekluse products are made in the USA at our manufacturing facility in Boise, ID.**

# APPAREL

"I don't think there is anything quite as fulfilling as bringing a big smile to a customer's face. At Rekluse we strive to make every interaction you have with our team and our product a great experience. Our mission is to develop innovative products designed to dramatically enhance your riding experience and to build a lasting relationship between you and Rekluse

- Dwayne Dayley, President Rekluse Motor Sports
